

FOR IMMEDIATE RELEASE

Jordan Perry Announces New Album *Jeux d'hiver*, Out March 13, 2026

Lead single “Sleep Forever” ft. Celin arrives February 6

Saskatchewan-based artist Jordan Perry will release his new album, *Jeux d'hiver*, on March 13, 2026. Translating to “winter games,” the project uses Canadian winter as both setting and metaphor - an exploration of isolation, endurance, and the unexpected connections forged during the coldest months of the year.

Created through collaboration and reflection, *Jeux d'hiver* treats winter not simply as a season, but as a shared national experience. Short days, frozen landscapes, and emotional stillness become creative fuel, shaping a body of work that is somber yet communal, electronic yet deeply human. The album suggests that while winter can feel heavy and unrelenting, it also invites empathy, reflection, and solidarity.

The album’s lead single, “**Sleep Forever**” (feat. **Celin**), will be released on **February 6, 2026**. The track pairs Perry’s moody voice and retro-influenced production with Celin’s calm, reassuring vocal presence, framing a moment of emotional crisis through compassion rather than despair. The song establishes the album’s central tension: winter as something that can weigh on us, but also draw us together.

Jeux d'hiver features a diverse group of collaborators from across Canada, each contributing their own perspective to the project’s wintry palette. In addition to Celin, the album includes contributions from **Wallgrin**, **eémi (of Beau Nectar)**, **Vikki Minor**, and **December Rose**, reinforcing the idea of collaboration as a counterbalance to isolation. The result is a cohesive yet varied listening experience that reflects winter’s many emotional textures.

Known for blending synth-driven pop with acoustic drums and cinematic atmosphere, Perry continues to expand his sonic identity on *Jeux d'hiver*, leaning into the nostalgic sounds of his youth while nodding to his French Canadian heritage. The album stands as a distinctly Canadian work - shaped by geography, climate, and the quiet resilience that winter demands.

Jeux d'hiver will be available on all major streaming platforms **March 13, 2026**.
